DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The Prior Art does not fairly teach or suggest the claimed device for sensing pressure having a sealed chamber means for defining a sealed chamber, a 1st flexible diaphragm means for mounting in communication with the sealed chamber means, the first flexible diaphragm means having a conductive surface; an insulator means for insulating the 1st diaphragm and being mounted on the other side of the 1st flexible diaphragm means; a second flexible diaphragm means for mounting in communication with the insulator means, the second flexible diaphragm means having a conductive surface; *sensor chamber means for communicating with a sensing atmosphere* and mounted on the other side of the second flexible diaphragm means; electrical connection means for measuring the capacitance between said first and said second flexible diaphragm means as a function of the pressure in the sensor chamber means introduced through the opening.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
